

Cyber defense by design

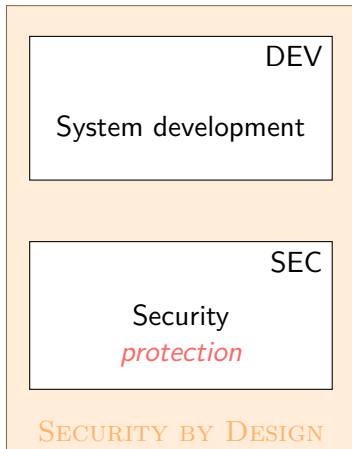

ideas for taking cyber defense into account when
designing system/software

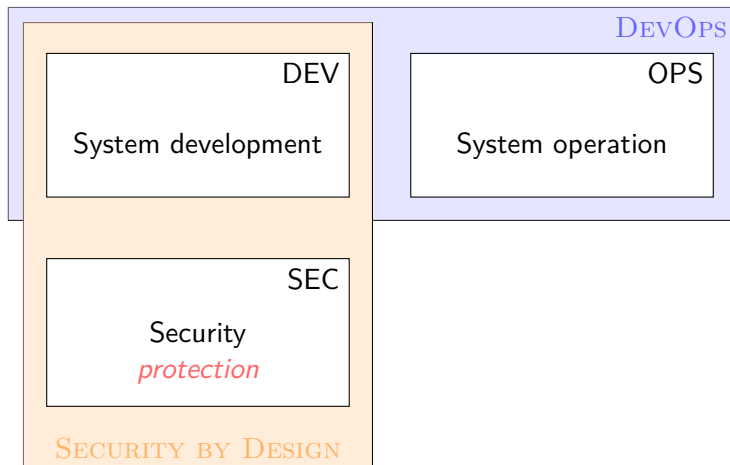

P4S team

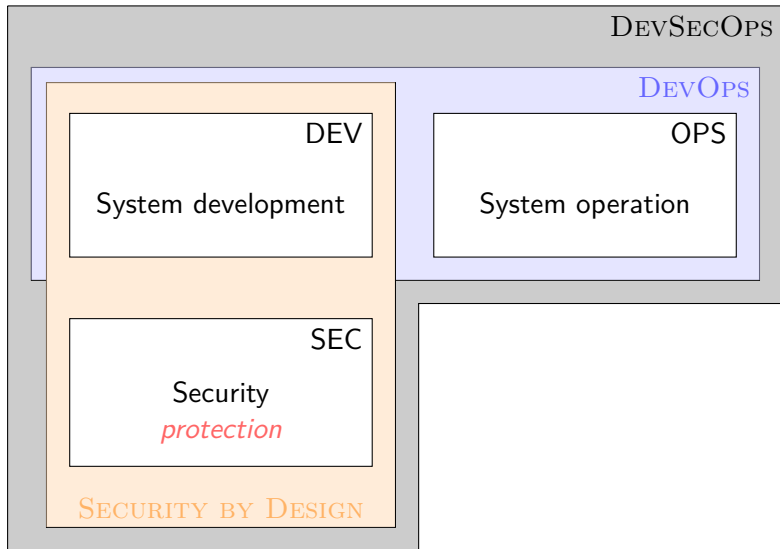

2024/06/26

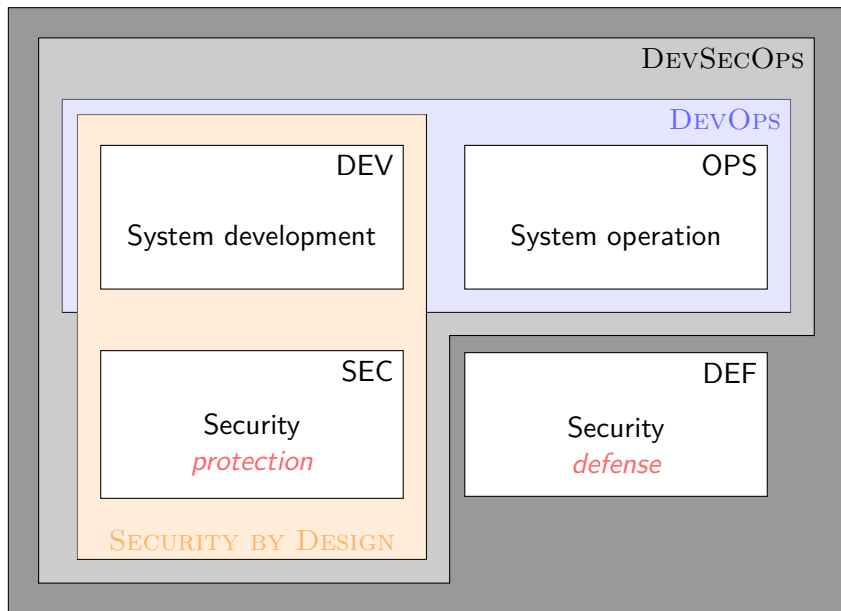

- Ideas under development
- Based on past activities on
 - devops
 - satellite onboard software (mode automaton)
 - security by design
- Work done
 - preliminary state of the art
 - ANR submission: *Co-engineering systems with their cyber defense (CILS)*

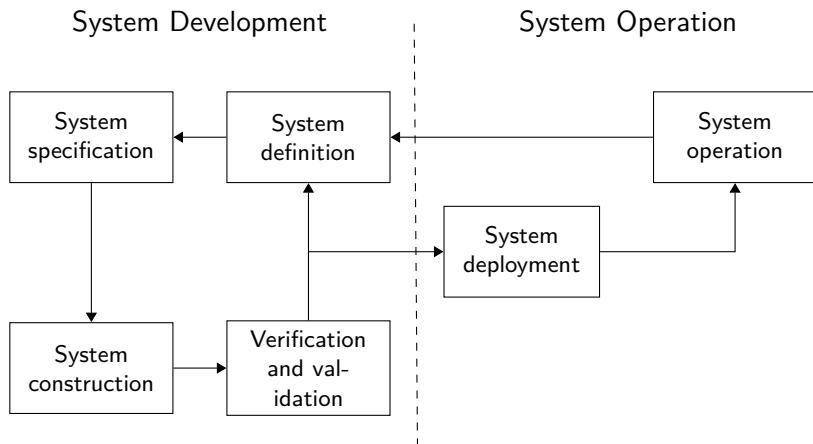

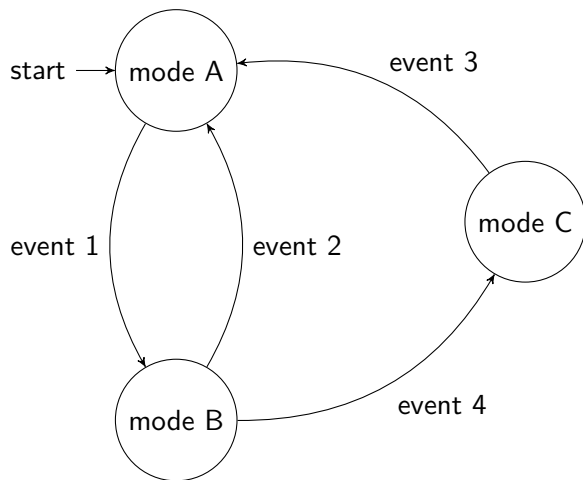

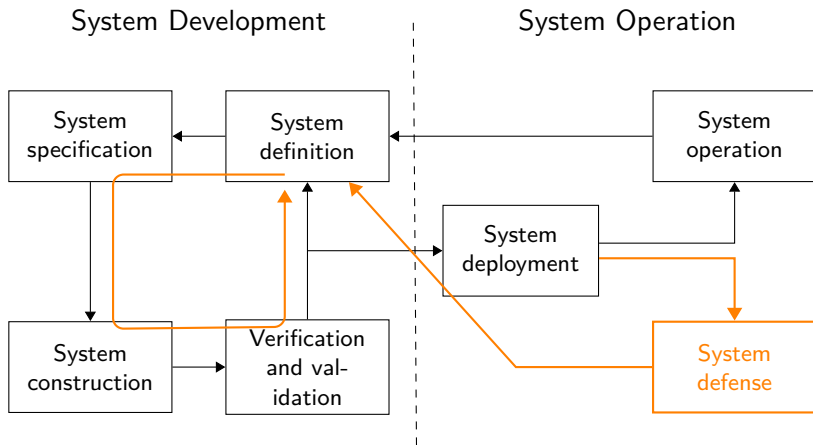

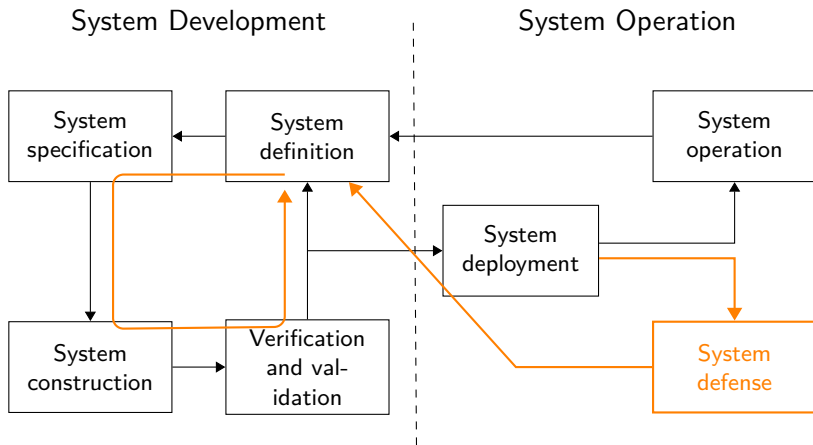

⇒ Cyber defense tailored for (system + operational context + missions)
